SUMMARY

Recent graduate in Information Technology with a strong foundation in software engineering, coding, and problem-solving. Committed to delivering high-quality solutions through meticulous attention to detail and a collaborative mindset. Eager to transition into a professional role where I can apply my skills, learn from seasoned professionals, and make meaningful contributions to impactful projects.

WORK EXPERIENCE (Internships)

Trainee Engineer Intern, Ajai Robotics Jun 2024 - Jul 2024

- Developed and enhanced front-end interfaces using Vue.js, improving user experience and interface responsiveness
- Collaborated with the development team to integrate front-end components with back-end systems.
- Contributed to the design and implementation of UI/UX elements, ensuring alignment with project requirements.

Trainee Engineer Intern, Nala Robotics Nov 2023 – May 2024

- Collected and curated datasets from various online sources for machine learning model training.
- Prepared and organized datasets using data captured from CCTV cameras.
- Trained machine learning models using Ultralytics, focusing on real-time object detection and recognition.
- Analyzed model performance, comparing results against real-time data to refine accuracy and reliability.

Trainee Engineer Intern , Nala Robotics May 2023 - Jun 2023

- Collected and curated datasets from various online sources for machine learning and data analysis.
- Completed data labeling to ensure accurate model training and analysis.
- Prepared detailed product analysis sheets to support decision-making and strategy development.

TECHNICAL SKILLS

Programming: Python, Java, SQL, HTML.
Machine Learning and & Deep Learning: Scikit-learn, TensorFlow, PyTorch, YOLO (Model Training & Evaluation)
Big Data & Frameworks: Hadoop.
Annotation & ML Tools: LabelImg, LabelMe
Development Tools: VS Code, Google Colab, Jupyter Notebook and GitHub.
Cloud (AWS): EC2, IAM, AWS CLI, S3, Route 53, VPC, RDS.
Data Visualization & BI: Matplotlib, Seaborn, Power BI, Tableau.

EDUCATION

Bachelor of Technology in Information Technology Jun 2020 – Jul 2024

Usha Rama College of Engineering and Technology, Telaprolu.

- Aggregated with 7.69 CGPA

Board of Intermediate Education, AP Jun 2018 – Mar 2020

A.P Model School & Jr. College, Dachepalli.

- M.P.C (Mathematics, Physics and Chemistry)
- Aggregated with 8.17 CGPA

Board of Secondary School Education, Andhra Pradesh. Jun 2017 – Mar 2018

A.P Model School & Jr. College, Dachepalli.

- Aggregated with 8.5 CGPA

PROJECTS

i) **Name: Pose Estimation of Peoples using CV2 Team size: 1**

Role played: developer

Project Description: Estimating the poses of a person and images through Machine Learning models. In this we can estimate and describe the pose of the person. The pre-processing and classification was done by Tensorflow library and plotting of pose's was done by matplotlib library

ii) **Name: Car Booking Forecast**

Team size: 1

Role played: developer

Project Description: The aim of the project is renting a cab automated and counting the booked cars data as hourly, monthly, yearly and by seasons. In this project we use Machine Learning libraries pandas, scikit-learn for data classification and for plotting we use the matplotlib library.

iii) **Name: Cloud Storage based on three-layer security**

Team size: 4

Role played: Back-end developer

Project Description: Creating a website and launching in AWS cloud using EC2 Instances and using IAM service for Authentication and Authorization and AWS – CLI for server-side encryption. In this project we have to create the certifications for website and validate them using RSA and SHA encryption algorithms

ADDITIONAL INFORMATION

Certifications:

➤ Data Analytics and Business Analytics by Naresh I Technologies	Jan - Apr 2026
➤ Data Analysts Toolbox: Excel, Python, Power BI, PivotTables by Udemy	Dec, 26 - 2025
➤ GenAI for Data Analysts by Coursera	Dec, 10 - 2025
➤ Data Engineering VIRTUAL INTERNSHIP by AWS	Jan – Mar 2024
➤ AWS CLOUD VIRTUAL INTERNSHIP by AWS	May – Jul 2023
➤ DATA SCIENCE FOR ENGINEERS by NPTEL	Jul – Sep 2022

- **Achievements:** Participated in A 3 - Day Workshop & 24-Hour HACKATHON on Amazon Web Services & DEVOPS - have won 'First Prize' in "WORKSHOP" held on July 17, 2023 to July 21,2023 at Usha Rama College of Engineering and Technology, Telaprolu.
- **Accomplishment:** Participated in and cultural events in school and college level Competition& State level Vocational course competitions
