Summary

Aspiring **Data Analyst** with strong skills in **Python, SQL, and Data Visualization (Power BI, Tableau)**. Experienced in **data cleaning, exploratory data analysis (EDA), and dashboard creation**. Hands-on experience in machine learning, data processing, and cloud technologies. Passionate about transforming raw data into actionable insights to support business decisions.

Technical Skills

Programming: Python, SQL, Java

Data Analysis: Pandas, NumPy, Excel

Data Visualization: Power BI, Tableau, Matplotlib, Seaborn

Machine Learning: Scikit-learn, TensorFlow, PyTorch, YOLO

Cloud (AWS): EC2, S3, IAM, RDS, VPC, Route 53

Tools: Git, Jupyter Notebook, Google Colab, VS Code

Other Skills: Data Cleaning, Data Preprocessing, EDA, Dashboard Development, KPI Reporting.

INTERNSHIP EXPERIENCE

Trainee Engineer Intern – Ajai Robotics

Jun 2024 – Jul 2024

- Developed responsive front-end interfaces using Vue.js, Improved user experience by **20–25%** by optimizing UI responsiveness
- Collaborated with backend teams to integrate APIs and ensure seamless data flow
- Enhanced UI/UX design aligning with business requirements

Trainee Engineer Intern – Nala Robotics

Nov 2023 – May 2024

- Collected and processed large datasets from multiple sources for machine learning models
- Performed data cleaning and preprocessing to improve data quality
- Trained object detection models using YOLO (Ultralytics) for real-time analysis
- Evaluated model performance and optimized accuracy through data-driven improvements

Trainee Engineer Intern – Nala Robotics

May 2023 – Jun 2023

- Performed data collection and labeling for ML models
- Prepared structured datasets for analysis and model training
- Created product analysis reports to support decision-making

PROJECTS

Zudio Store Sales Analysis Dashboard | Power BI Project

- Built an interactive Zudio Store Sales Analysis Dashboard using Power BI to analyse retail performance and trends.

- Cleaned and validated raw data using Python, and used MySQL to establish relationships between datasets.
- Created KPIs and insights using DAX, identifying key trends like an 8% sales drop in 2024 and top-performing categories.
- Delivered clear visualizations to support data-driven business decisions.

Bank Loan Approval Analysis | Power BI & Tableau

- Built an interactive Bank Loan Approval Analysis Dashboard using Power BI and Tableau to analyse Loan Approval Performance.
- Cleaned and validated raw using Python, and used MySQL to find out the relationships in the dataset.
- Created KPIs and insights using DAX, identifying key insights like FEMALE has got 4.16 % more Loan Approval Rate and Approval Rate high in the Semi - Urban Area
- Delivered clear visualizations to support data-driven business decisions.

Project Cloud Storage with Three-Layer Security

- Developed a secure cloud-based application using AWS EC2 and IAM
- Implemented authentication and encryption using RSA and SHA algorithms
- Managed secure data storage and access control

EDUCATION

Bachelor of Technology (Information Technology)

Usha Rama College of Engineering and Technology (2020 – 2024)

CGPA: 7.69

CERTIFICATIONS

- Data Analytics & Business Analytics – **Naresh IT (2026)**
- Data Analyst Toolbox (Excel, Python, Power BI) – **Udemy (2025)**
- GenAI for Data Analysts – **Coursera (2025)**
- **AWS Data Engineering Virtual Internship (2024)**
- **AWS Cloud Virtual Internship (2023)**
- Data Science for Engineers – **NPTEL (2022)**

ACHIEVEMENTS

- Won First Prize in AWS & DevOps Workshop Hackathon (2023)
